

## DulSCO CSR Report – January 2017

CSR Activity	Details	Moments
<p><b>16<sup>th</sup> – 19<sup>th</sup> January 2017: Ecowaste</b></p>	<p>DulSCO participated in Ecowaste 2017. The design concept was "Together we can create a sustainable future".</p> <p>The stand was created mostly with recovered and recycled materials like cardboard, plastic bottles and newspaper. The "largest recycling logo created with recyclables" was the highlight of DulSCO's stand. The smiling Emirati child in the center of the recycling logo was a collage created out of old newspapers and depicts that sustainability initiatives that we take today will ultimately result in the smile of the future generation.</p> <p>As a part of Year of Giving, DulSCO will be planting Ghaf trees for every sustainable message that we received in the plastic bottle wall during EcoWaste. We received 270 messages and will be planting 270 Ghaf trees across UAE and Qatar.</p>	 <p style="text-align: center;"><b>DulSCO Stand at Ecowaste 2017</b></p>  <p style="text-align: center;"><b>Plastic Bottle Wall</b></p>
